ACTOMAN® PLUS

Liquid Soap for Hand and Skin Antisepsis

Microbiological Activity:

Actoman® Plus has bactericidal (EN 13727, EN 1650), yeasticidal (EN 13624, EN 1276) and virucidal (EN 14476) action. 30 secs/1 minute for bactericidal and yeasticidal action. The time to virucidal action is 1 minute.

Method of use:

Hygienic hand antisepsis: After the application area is wetted with water, take 3 to 5 ml **Actoman® Plus** in the palm of your hand and spread the foam over your hands in a way to cover the whole surface. Rinse your hands, including wrists, in accordance with the hygienic handwashing instructions. After the procedure, rinse your hands with water and dry.

Surgical hand antisepsis: After the application area is wetted with water, take 5 ml **Actoman® Plus** in the palm of your hand, rub the foam on your hands

and arms up to your elbow and rub for 3 minutes in accordance with surgical hand washing instructions.

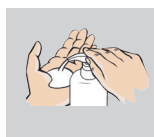

Rinse with water, repeat the same procedure a second time, dry with a sterile towel.

Body wash before surgical procedures: Moisten the entire surface of the body under the chin or around the operation area with water. Use approximately 40-100 ml **Actoman® Plus**. Foam the desired surface completely with **Actoman® Plus** and wash for 5 minutes. Repeat the procedure a second time. Rinse with water and dry.

Chemical Composition:

4 % Chlorhexidine gluconate, glycerin, dexpanthenol and auxiliary substances.

Instructions For Use:

1st step:
Apply **Actoman® Plus** to the palm of one hand.

2nd step:
Cover the whole surface of hands up to wrists, rubbing palm to palm.

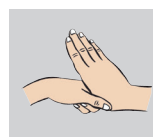

3rd step:
Rub right palm over the back of left hand with interlaced fingers and vice versa.

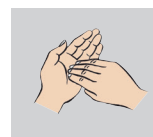

4th step:
Rub again palm to palm with interlaced fingers.

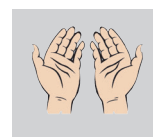

5th step:
Rub the back of fingers to opposing palms with fingers interlocked, repeating this action for each hand.

6th step:
Rub rotationally right thumb clasped in left palm and vice versa.

7th step:
Rub rotationally backwards and forwards with clasped fingers of left hand in right palm and vice versa.

8th step:
Let the hands to dry by air.
